How many have you seen today?

What do birds eat? (circle your answers)

Chips

Grains

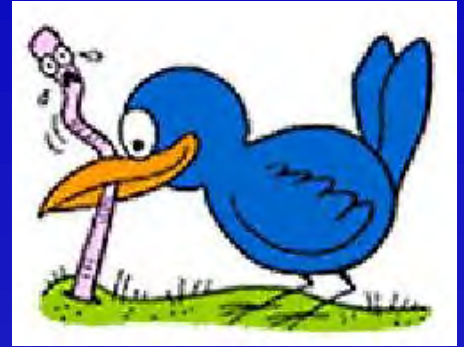

Worms

Bread

Insects

Berries

Nettles

Seeds

ice cream

Spiders

How to help the birds at King's Gardens?

Birds like humans need a healthy diet this will help with their aviation and migration.

Feed the birds with seeds and oats to help them live a healthy life.

Foods that we eat like bread and chips are not good for the birds.
