

King's Gardens, Southport

ARCHITECTURE AT KING'S GARDENS

Design

What is architecture?

Architecture is the drawing, design and making of buildings. Every building in King's Garden, started with an architect.

What is restoration?

When places have been around for a long time, they can look very tired, so people do not use them as much. By restoring them, we make them look like they did in the past, so that people use them again.

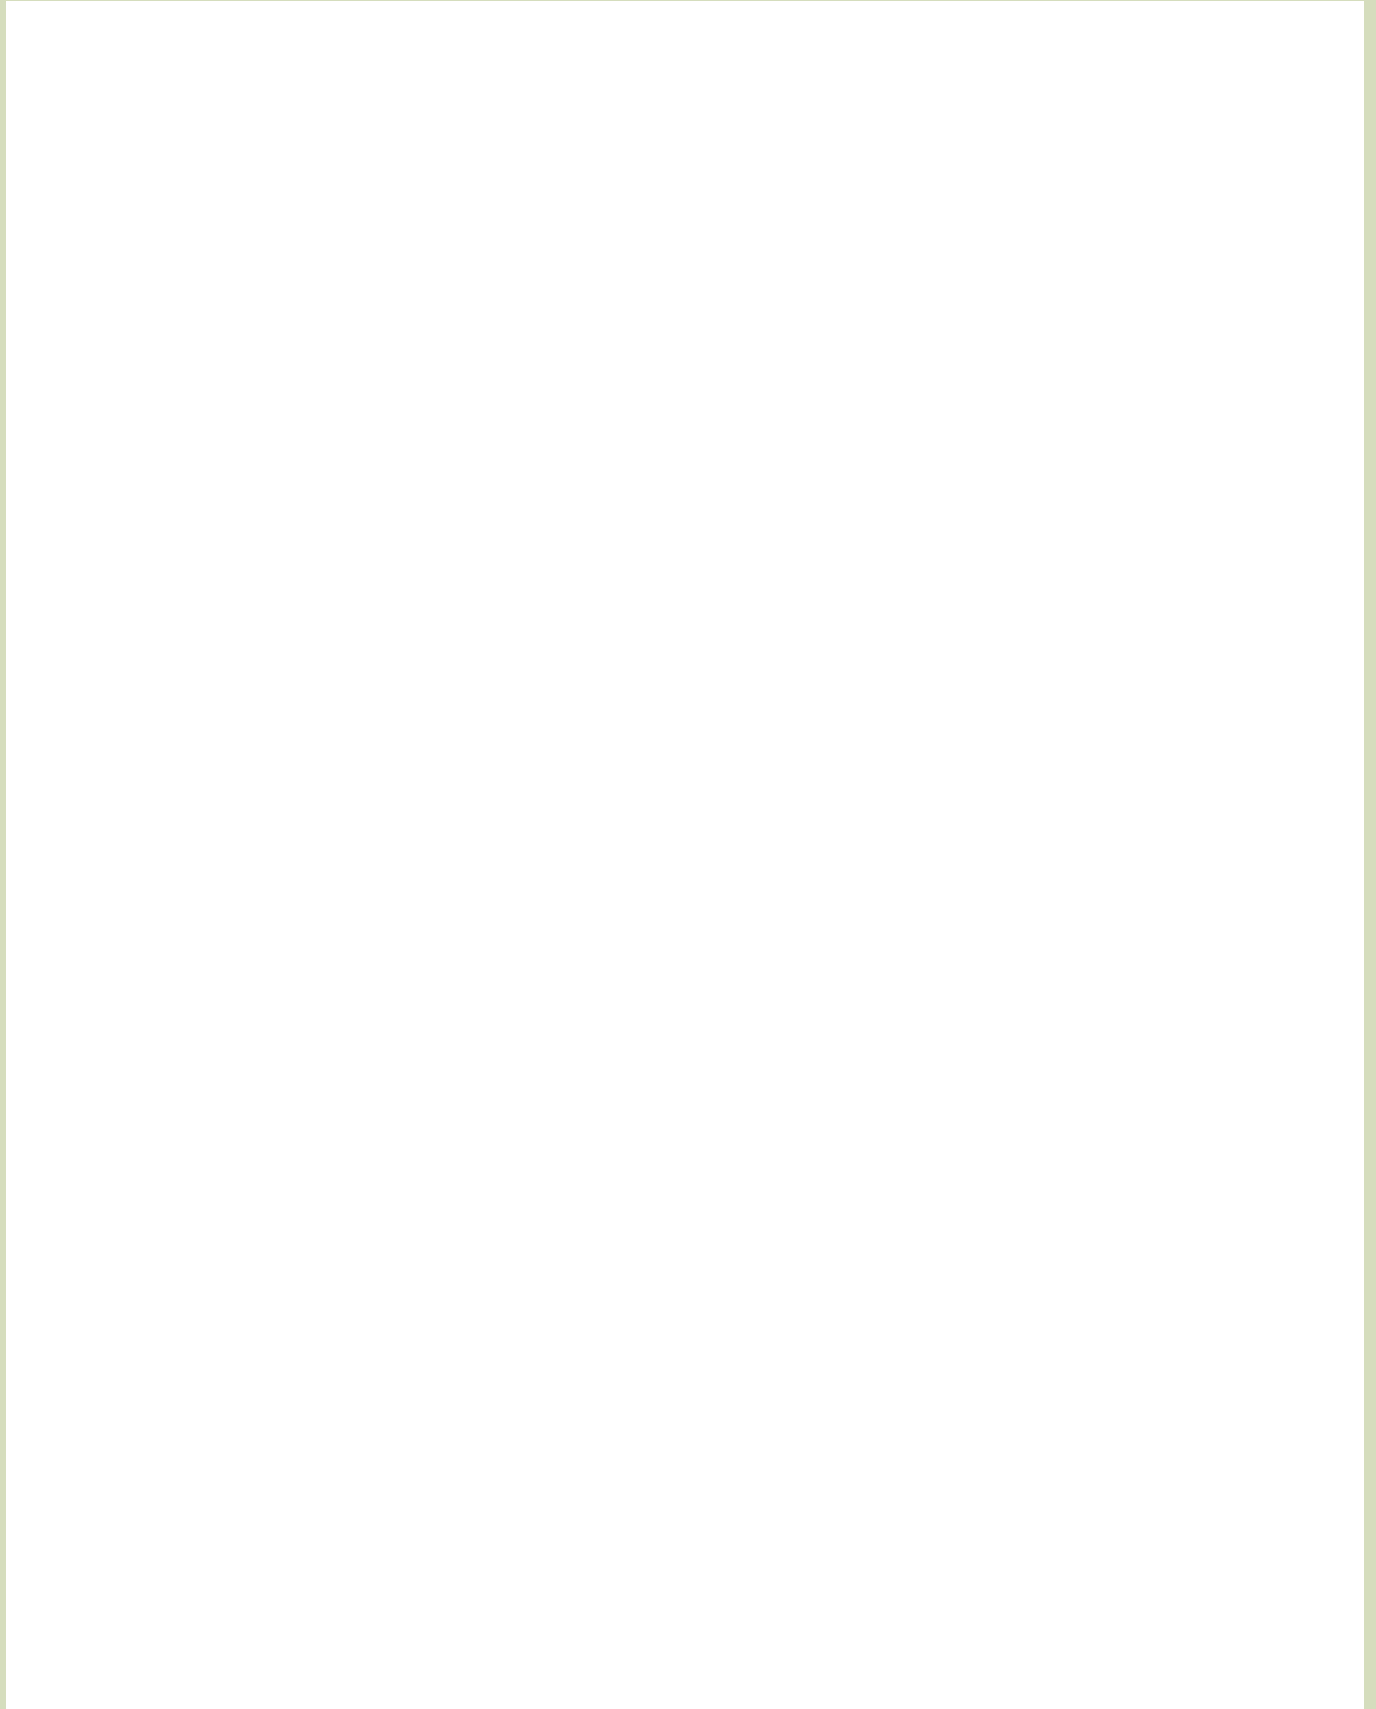

Spot the Difference

Look at the buildings above. What changes can you see?
What do you like about the buildings?

Design your own Building

Your building can be anything you think will look great in King's Gardens

Shelters

Art Nouveau

Can you find out what Art Nouveau means?

Explore the shelters;
write down what you
can see

There are 9 shelters, these are registered Grade II listed building meaning they are of special historical interest.
